

[Data Platform NMS + DI- 10 Day Remote User Training]

SERVICE OVERVIEW

The SevOne Data Platform Remote training course offers participants an engaging and interactive look at the SevOne Data Platform. Participants will work independently, as well as in small groups, to solve real world issues while completing all predefined course objectives. Participants will learn about the fundamentals of performance monitoring using SevOne Data Appliance NMS, and reporting on that performance using SevOne Data Insight. Participants will work in a lab to solve real world issues while completing course objectives. SevOne provides the world's largest CSPs, MSPs and enterprises with the most comprehensive technology portfolio to collect, analyze and visualize network & infrastructure performance data to deliver actionable insights to compete and win in a connected world. This course will equip learners with a high-level understanding of the SevOne Data Platform and its features, so they can support their business goals.

DELIVERABLE DESCRIPTION

The Data Platform training is comprised of the following course outline:

- What is SevOne? - Overview
- Device, Object, and Indicator Model
- Grouping
- User Admin
- Data Collection
- SURF Reporting
- Data Insight Reporting
- Alerting

SERVICE ENGAGEMENT PROCESS

APPLICABLE PRODUCTS

- The start date for the provision of services set forth above shall be scheduled by the parties upon the receipt by SevOne of a customer purchase order.
- After approval, SevOne Training will work with the customer to schedule the dates for training to commence.
- There will be a pre-call with SevOne Training, no later than one week in advance of the engagement to discuss the delivery method, a list of attendees, and the desired outcome(s).
- After this call, SevOne Training will provide the necessary technical pre-requisites to setup the customer environment for the training engagement.

TERMS AND ASSUMPTIONS

- Services will be invoiced upon delivery.
- This offering (TRNG-USER-10D) is governed by the applicable terms and conditions available at <https://www.sevone.com/sites/default/files/sevone-professional-services-terms-and-conditions.pdf> (the “Agreement”), the terms of which are incorporated by this reference. Notwithstanding anything to the contrary, if there is a mutually signed agreement (not including any purchase order or similar document) between SevOne and Customer expressly covering the sale of professional services as of the date of this offering, then the express terms of that agreement will govern and will be deemed the Agreement.
- The training is delivered remotely over zoom.
- Scheduling changes or cancellations must be made at least 14 days in advance of the agreed upon start date. Any cancellation within 14 days of training will be billed to the customer in full.
- All participants must have access to a computer for the lab portion of the training.
- All training delivery will be consecutive days.
- To accommodate maximum material coverage, class size is limited to 10 students.
- Customer shall make necessary personnel and systems available for SevOne’s provision of training.
- Customer will make sure that all technical requirements specified for the delivery of training are met prior to the commencement of the training event.
- SevOne is not responsible for any delays not caused by SevOne, such as network connectivity, and shall count hours worked around such issues. SevOne will bring delays to the customer’s attention immediately, and no later than the same day. The customer may then choose to suspend work at the end of a working day.
